

The gold standard
in airport luggage
cart systems

WORLDCARTE®

1118 NON-BRAKE CART AND 1110 BRAKE CART

smartecarte

Stainless steel construction is durable and attractive. The front basket can accommodate small items like purses and briefcases.

Carts have a turning radius of 9 feet when nested, providing superior maneuverability.

**9 FOOT
TURNING
RADIUS**

1118 NON-BRAKE BAGGAGE CART

- Brakeless model is appropriate for most airports.
- The 1118 is the industry's most labor-efficient and customer-friendly cart.
- Can be equipped with special wheels to eliminate movement on a moving sidewalk.

1110 BRAKE BAGGAGE CART

- Appropriate for airports with train platforms.
- Patented mechanisms release the brakes when the carts are nested.
- The ergonomic design allows the passenger to release the brake by simply pushing down or pulling up the handle bar.

Non-marking wheels protect the appearance of floors.

Side and rear panels provide an additional messaging tool and advertising revenue generator.

Available option: front travelator caster.

Smarte Carte's Enterprise Cart Management Unit

The embodiment of decades of innovation and operation.

- Accepts coins, bills, and credit-cards.
- Cart rental transaction data is collected by internal microprocessor.
- Usage meters are unalterable to prevent theft.
- Heated for cold weather.
- Option to dispense reward to incent passengers to return cart.

The **electronics package** offers travellers the convenience of credit card rental.

SPECIFICATIONS

CART MANAGEMENT UNIT
